

Greening Bathurst, Charles Sturt University and Bathurst  
Community Climate Action Network Present

# An Evening with Regenerative Agriculture Practitioners: Good News Drought Stories

Friday 1<sup>st</sup> November 2019, 630 pm – 830 pm  
Holy Trinity Parish and Community Centre  
81 Gilmour Street Kelso.

Entry fee at the door – \$5 or a gold coin

RSVP to [hugh.gould@gmail.com](mailto:hugh.gould@gmail.com) by 30/10/2019

**Speakers include:**

**Canowindra farmer, Paul Newell;**

(Paul's grasses are actively seeding during the drought! Paul has transformed a very degraded property working with nature, using low cost strategies)

**Dr Ian Chivers, CEO Little River Landcare Group;**

(Ian is an agronomist with special interest in native grasses and will discuss their importance in building a drought-resilient farm)

**Peter Hazell, Project co-ordinator of the Mulloon Institute**

(Peter will tell us about the wonderful story of this federally funded project that is bringing water back into the landscape & re-hydrating floodplains, along this 50 km Creek in the upper catchment of the Shoalhaven River.)

A half hour for Q and A followed by a light supper

**On the same day: 1230 – 5pm, Feeding the Soil Food Web Dirt Workshop,**

Sponsored by Bathurst Region Vignerons and Greening Bathurst
